- En-suite is a fully tiled wet room with a vaulted ceiling and rooflight
- Vanity sink units and soft close toilet seats installed
- Showers feature waterfall showerheads with recessed wall-mounted controls
- Mirrors fitted in all bathrooms with colour changing lights

Description

Welcome to West View, a small, architecturally inspired development in the heart of the beautiful Lincolnshire village of Bassingham. The developers, KNG Properties, have been mindful to offer a traditional curb appeal which is sympathetic to the High Street, whilst also incorporating the subtle contemporary features that make a new home so irresistible. Textured buff bricks in varied colours/shades have been used to create a beautiful two-tone façade, designed to draw the eye. A combination of flush casement uPVC and powder-coated aluminium windows and doors have also been vincorporated in contrasting grey tones.

A square bay window in the living room provides support for a flat-roofed, slate-grey front porch. The porch is approached by a large block-paved turning area, bordered by a freshly turfed front lawn with a 900mm brick boundary. To the side of each property is a part-paved, part-gravel driveway which extends over 25m to the rear of the plot, giving access to a large, single detached garage with power and water supplies. The rear garden is freshly turfed and finished with a 1.8m fence to all external boundaries, and a 1.8m high wall between plots 1 & 2 for added privacy. Both houses and garages have been finished with antique style slate roofs which are typical of the local area.

The front door opens into an entrance hallway which gives access to a spacious study, a ground floor w/c and an 18ft lounge with a west-facing, floor to ceiling glass bay window. At the rear of the hall is a stunning 24ft Kitchen Dining Living space with feature floor-to-ceiling aluminium bi-folding doors, which lead out to a sizeable patio area and turfed lawn. A mixture of tiling, carpet and Amtico flooring have been used to the ground floor. To the first floor are 4 double bedrooms and a 4-piece bathroom and en-suite shower room to the master. The entire master suite benefits from a feature, full height vaulted ceiling with fitted rooflights, creating a roomy, light-filled space. Both bathroom and en-suite feature vanity sink units, soft close toilet seats and waterfall showerheads with recessed wall-mounted controls. Please see the specification details for a comprehensive overview of the finished article.
